HAWAI'I NURSING WORKFORCE SUPPLY

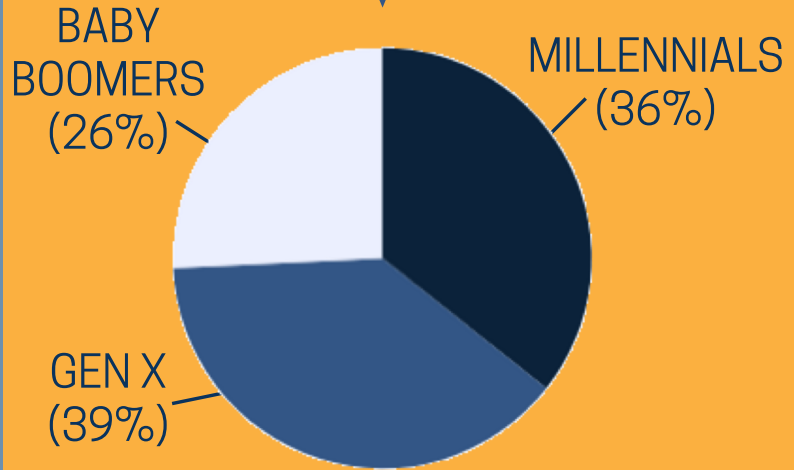

"Nursing's leaders recognize a strong connection between a culturally diverse nursing workforce and the ability to provide quality, culturally competent patient care. Though nursing has made great strides in recruiting and graduating nurses that mirror the patient population, more must be done before adequate representation becomes a reality. The need to attract students from underrepresented groups in nursing – specifically men and individuals from African American, Hispanic, Asian, American Indian, and Alaskan native backgrounds - is a high priority for nursing profession."
