

COVID-19 RESOURCES

The Hawaii State Center for Nursing prioritizes the health and safety of nurses as they care for patients in novel outbreak environments like COVID-19, commonly referred to as Coronavirus.

To ensure access to the most-timely evidence related to COVID-19, HSCN compiled a list of resources about the virus, personal protection techniques, and public safety information. Additionally, HSCN encourages you to work with your employer or school of nursing to ensure you are informed with the best practices, policies, procedures, and rules that may further support you and the community at large.
