

## Active LPN, RN, and APRN Licenses, 2014-2024

The data in these graphs were taken from the Geographic Report of Licenses published by the Professional & Vocational Licensing Division of the Hawai'i Department of Commerce and Consumer Affairs. The original sources for the data contained in the graphs below are available on the [PVL website](#).

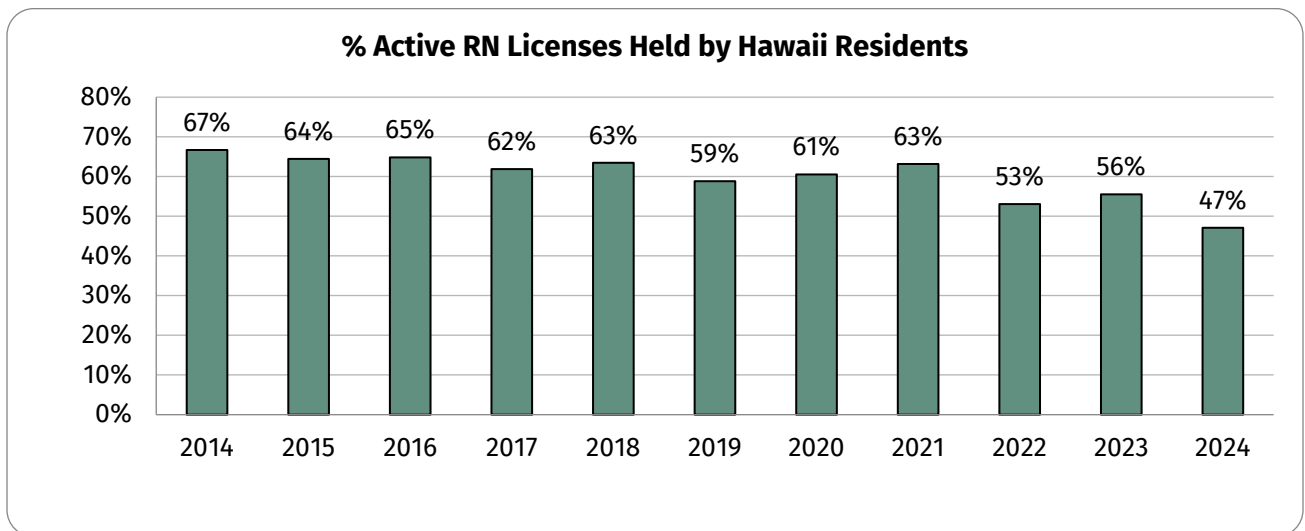

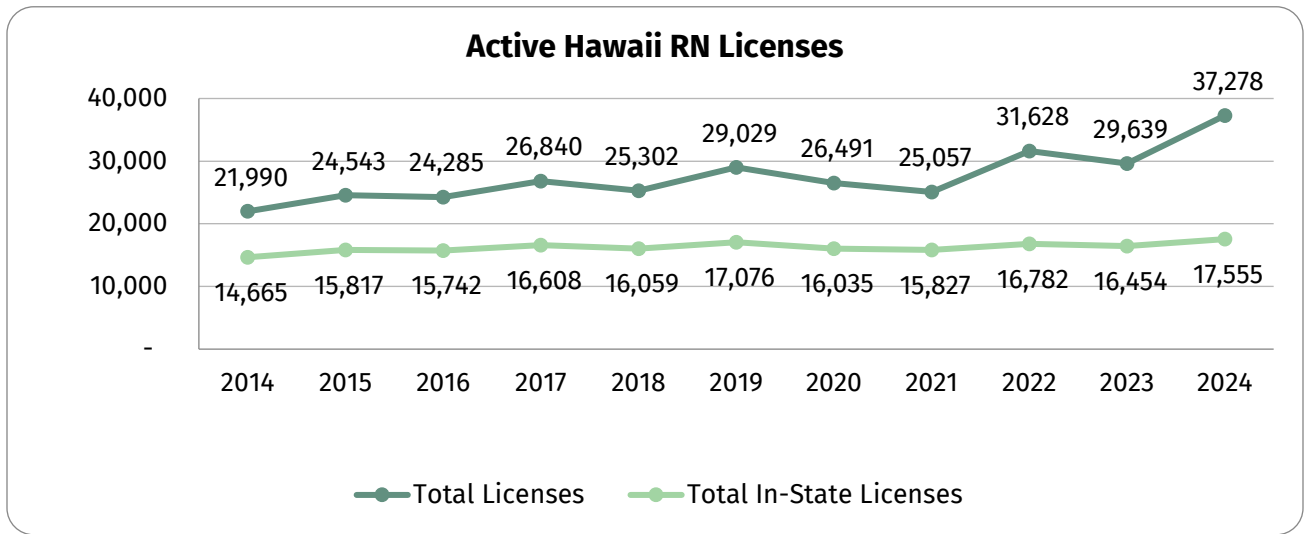

The Hawai'i State Center for Nursing has aggregated the data to demonstrate changes in nurse licensure over time. In the "Active Hawai'i Licenses" graphs, "In-State Licenses" refers to the number of active licenses held by individuals with addresses of record in Hawai'i.

Questions about the graphs should be directed to Carrie M. Oliveira, Ph.D., Researcher at the Hawai'i State Center for Nursing ([carrieol@hawaii.edu](mailto:carrieol@hawaii.edu)).
